

# BASEL ALI AHMED

Software Engineer |Asp.net|Laravel|Vue.js

+966595316423 • baselali337@gmail.com • <https://www.linkedin.com/in/basel-ali-501427229> • baselali.com  
• Saudi Arabia Riyadh Transferable Iqama

## Summary

Specializing in backend development and frontend design. With four years of experience. Proficient in Laravel and Vue.js and Asp.net modern web technologies, with a focus on building scalable, robust systems. Blending creativity with analytical thinking, I excel in solving complex problems and designing efficient system architectures. A detail-oriented, collaborative team player, I deliver high-quality code and user-centric solutions. I have a proven track record of driving projects from concept to completion, with a constant focus on optimizing performance and enhancing the overall user experience.

## Projects

Qassim University Qassim, Saudi Arabia  
02/2025 - 02/2026

Systems for managing **faculty appointments and promotions**.

- Systems to support faculty members and the Scientific Council at Qassim University.
- Scalable platforms for managing academic appointments, promotions, and administrative workflows.
- Experienced in backend architecture, Docker, and integration with national identity systems like SSO, Nafath, and LDAP.

Bookify system sudan  
03/2023 - 03/2024

**SaaS System for Booking Tickets**

- Lead the development of core backend processes, including **payment processing** and **ticket booking systems**.
- Oversee the integration and maintenance of various **partner portfolios** within the platform.
- Implement and maintain **frontend features** using modern technologies, ensuring a seamless user experience across platforms.

Hermosa Salon Accounting System Jeddah, Saudi Arabia  
09/2022 - 12/2022

**Accounting System & ERP**

- Lead the development of the **frontend** using **Vue.js CLI**, creating responsive and user-friendly interfaces.
- Maintain and enhance the **backend** systems to ensure consistent functionality and performance.

## Key Achievements

### Developed a Scalable SaaS Platform

backend development for Bookify, successfully implementing payment processing and booking ticket features, resulting in a 50% increase in customer satisfaction.

### Developed Appointments System for Qassim University

Designed and implemented a robust appointment scheduling system for faculty and students, integrating with existing university authentication (SSO, Nafath, LDAP) .

### Scholarship System

Developed a full-stack scholarship management platform that automated application processing, evaluation, for faculty and students.

## Experience

---

### Qassim university

#### Full Stack Developer

Qassim, Saudi Arabia

02/2025 - Present

- Building and maintaining systems that integrate with SSO, Nafath, and LDAP.
- Building and maintaining systems that integrate with SSO, Nafath, and LDAP.
- Leading the development and maintenance of large-scale, secure web applications for government and educational sectors, including advanced e-learning platforms.
- Designing and optimizing complex backend architectures using modern technologies and containerization tools such as Docker and Docker Compose.
- Integrating enterprise-grade authentication systems, including SSO (Single Sign-On), Nafath, and LDAP, ensuring compliance with national security and identity standards.
- Conducting in-depth system analysis and implementing technology upgrades to improve scalability, performance, and maintainability across multiple services.
- Collaborating with cross-functional teams to deliver high-impact digital solutions tailored to institutional and governmental needs.
- Project analysis and technology upgrades to enhance performance and maintainability.
- Project analysis and technology upgrades to enhance performance and maintainability.

### Bookify

#### Senior Backend & Frontend Developer

Khartoum, Sudan

01/2023 - 01/2024

- Development of core backend processes, including payment processing and ticket booking systems.
- Oversee the integration and maintenance of various partner portfolios within the platform.
- Implement and maintain frontend features using modern technologies, ensuring a seamless user experience across platforms.

### Hermosa Salon System

#### Frontend Developer

Jeddah, Saudi Arabia

04/2022 - 11/2022

- Development of the frontend using Vue.js CLI, creating responsive and user-friendly interfaces.
- Maintain and enhance the backend systems to ensure consistent functionality and performance.

## Education

---

### University of Science & Technology

#### Bachelor of computer science

OMDURMAN, Sudan

09/2019 - 09/2023

- Development of the frontend using Vue.js CLI, creating responsive and user-friendly interfaces.
- Bachelor of computer
- University of Science and technology
